Elegant & Sweeping

Cæsura is a bold display typeface that draws from a rich blend of influences, seamlessly merging the stoic, structured forms of mid-century European signage with the fluid, expressive strokes of Japanese calligraphy. Available in a single Bold weight, it is crafted specifically for headings where its striking character and high contrast can take center stage. Cæsura's design plays with exaggerated strokes and sweeping swashes, balancing rigid, upright structures with dramatic, knife-like cuts that slice through the glyphs, creating a dynamic tension that feels both timeless and distinctly modern. The currency symbols, for instance, feature sharp, tailored cuts that offer a contemporary reinterpretation of familiar shapes.

This typeface embodies a fascinating duality in every detail. Its comprehensive glyph set covers a wide range of European languages and includes Vietnamese diacritics, making it versatile for various linguistic needs. Cæsura also features a playful collection of graphical discretionary ligatures, including distinctive combinations like the double “g,” “gy,” and “ks,” adding an unexpected flair to the typography. To further enhance its expressiveness, Cæsura includes an alternate set of punctuation with diamond-shaped forms, pushing the boundaries of traditional design.

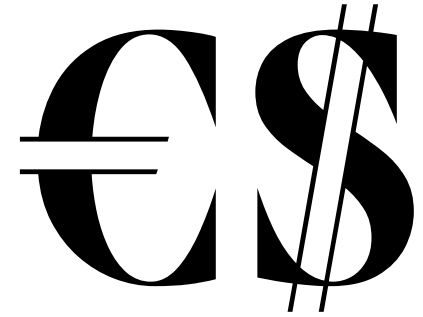

With its unique blend of influences and versatile features, Cæsura is a perfect tool for creating captivating graphical layouts that stand out with sophistication and style.
