A warm sans-serif typeface.

Introducing Squil v1.0! Our warm and joyful sans-serif typeface has evolved, now boasting a comprehensive glyph set and enhanced performance. The typeface, shaped by an imaginary tool that resembles handwriting, has humanist qualities with a distinctive gentle flair. The subtle calligraphic influence is evident in the pinched stems while a slightly-angled axis and gentle curves add coziness to the design.

With weights spanning from Light to ExtraBold, Squil covers all the bases. Want to amp up the friendliness? Just crank up the 'round' axis for extra smooth, rounded terminals for a softer look. You can tweak the terminals from straight-edged to fully-rounded, giving you the autonomy to fine-tune its personality.

Whether you're crafting a zesty lemon drizzle cake recipe or diving into the fascinating world of starfish cloning, Squil makes every word pop with delight. It's dynamic in larger

sizes and stays crisp and clear in smaller sizes. Its smooth texture makes reading a pleasure in any context, from a welcoming tone in body text to dynamic headlines.

Stay tuned for future updates, including potential Italic companions and further enhancements. Explore the full potential of Squil now!

A large, bold, black uppercase letter 'H' with a slightly irregular, hand-drawn appearance, featuring a small notch at the top of the left vertical stem.

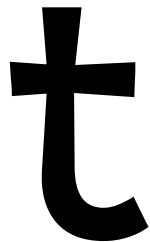

Sculptural details

Two lowercase letters 'n' shown side-by-side. The first 'n' is thin and light, while the second 'n' is significantly thicker and darker, demonstrating weight variability.

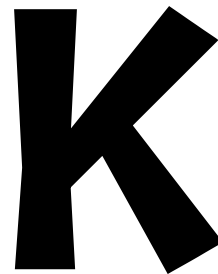

Variability of weights

A lowercase letter 'a' with a thick, rounded bowl and a slightly curved tail, showing some contrast in weight between the bowl and the stem.

Some contrast

A lowercase letter 't' with a thick vertical stem and a horizontal crossbar. The top corners of the crossbar are broken or notched, giving it a sculptural feel.

Broken corners

An uppercase letter 'K' with a thick vertical stem and a diagonal arm. The terminals of both the stem and the arm are straight and sharp-edged.

Straight-edged terminals

A lowercase letter 'x' formed by two thick, rounded strokes crossing at the center. The ends of the strokes are rounded, giving it a soft, rounded axis.

Rounded axis

638 Latin

hhea - OS/2 ascent: 1000

capHeight - ascender: 750

xHeight: 506

The image displays three large, bold, black characters: an uppercase 'H', a lowercase 'b', and a lowercase 'p'. These characters are positioned between horizontal lines that represent different vertical metrics. The 'H' and 'b' are positioned between the 'xHeight' line and the 'ascender' line. The 'p' is positioned between the 'xHeight' line and the 'descender' line. The 'b' and 'p' are positioned between the 'ascender' line and the 'descender' line. The 'H' is positioned between the 'ascender' line and the 'xHeight' line.
