BoosterNext FY is a round sans-serif typeface with a friendly look. Due to its large width, this is a perfect font family for Web or other Screen Applications. Type design is the art & process of designing typefaces. It is often used synonymously with the term font design, because most nondesigners refer to fonts, rather than typefaces. A typeface differs from other modes of graphic production such as handwriting and drawing in that it is the mechanical storage and dispensation of alphanumeric characters. Each of the characters is stored in a master archetype form and then a user, by means of hand picking (handset metal type), a
